

# Making accessible ePubs with DAISY's WordToEPUB plugin for Microsoft Word

DAISY's WordToEPUB plugin for Microsoft Word is a free tool that allows you to convert any Word document into an accessible ePub. It is available as a free plugin from [DAISY](#) for the Microsoft Word desktop application on **Windows only**.

ePubs are an open-source eBook format with standardized accessibility features. You can read about the [ePub standard](#) at the w3c. ePubs are widely used by the blind and low vision community as they work particularly well with screen readers, are easily navigable with assistive technologies and allow text to be customized to various needs (i.e. resizable, contrast).

## 1. Download and install WordToEPUB Plugin.

- Minimum requirements are Windows 7 and Microsoft Word 2010 or newer.
- You can follow these [instructions](#) to help you install.
- [Download](#) the WordToEpub installer and follow the prompts.

## 2. Launch **Word** and **confirm** WordToEpub is installed.

- Open or restart Microsoft Word.
- Open the home tab and look for WordToEPUB in the ribbon

*Figure 1 The Microsoft Word Ribbon menu showing the WordToEPUB button*

- If you can see the WordToEPUB button, it is installed successfully.

## 3. Prepare your **word document** for conversion to ePub.

- Follow the [Accessible Microsoft Word](#) Guide included in this toolkit.
